

# HOW TO PLAY INSIGHT CARDS

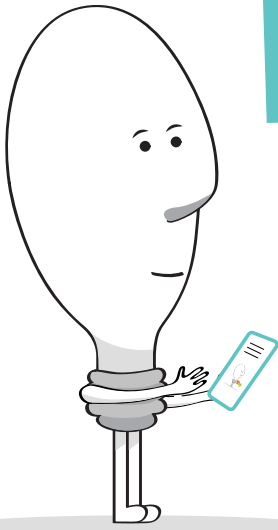

World  
of Insights

## Insight Circles

Create teams of max 5 people, shuffle the cards and place them face down in the middle of each team.

(You can have max 20 players with one deck on Insight Cards, to have enough Insight cards for each group)

The aim is for everyone to collect insights for personal growth and business innovation.

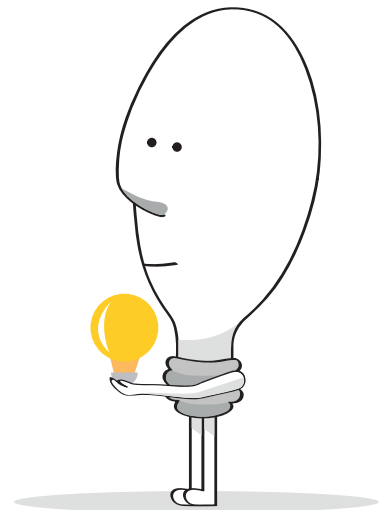

### 1. Pick a card

Any player can start by picking up a card from the deck.

### 2. Reflect

Read the question out loud and answer the question. There are no right or wrong answers - just discover your own insights.

### 3. Repeat

Next player clockwise, pick a card, read the question out loud and answer.

Continue as long as you want. We recommend 20-30min. Wrap up by sharing one key insight from the game and write down an idea you would like to take into action.
