

# CIRCLES WITH DICE

## How to play with Insight Cards

You can add playfulness to other versions of game play by introducing a dice. You can either find a real dice, or download a dice app for a mobile phone.

Create teams of max 5 people. Make a separate pile with the “Make your own question” cards.

The aim is for everyone to collect insights for personal growth and business innovation.

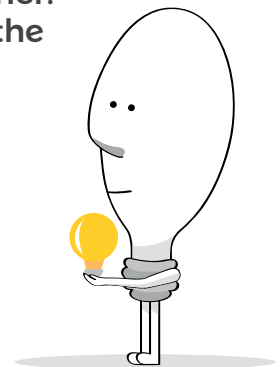

### 1. Roll the dice and reflect

Any player starts by rolling the dice. When the player rolls a:

- 1: Pick a “Make your own question” card.
- 2: Doodle your answer (not the question) and others need to interpret.
- 3: Everyone answers together.
- 4, 5 or 6: The player who picked the card answers

After rolling the dice, pick a card and follow the instructions above. Always read the question out loud reflect with your best insights.

### 2. Mix and Repeat

Next player clockwise, roll the dice, pick a card, read the question out loud and answer.

Continue as long as you want. We recommend 20-30min. Wrap up by sharing one key insight from the game and write down an idea you would like to take into action.
